

**Buiders Plates  
Pictures of Old AVR – this was  
abandoned in-place.**

**Universal AVR. Note – generator was run approx. 3-hours under load using this AVR. Consistent out put of 125VAC/62hz per Blue Seas M2 monitor**

**Relays – several pics of same thing.  
Tough to get focus correct. Please  
let me know if additional pics are  
needed.**
