Quick Connect Plumbing System

Whale Quick Connect fittings ensure a high integrity, reliable, plumbing system solution, specifically designed for use in mobile applications.

Save Time and Money by Using Whale Quick Connect

Fittings and pipework design ensures easy installation and re-usability of components.
The simple two step installation procedure does not require special tools to make a watertight connection.

Features and Benefits

• Unique 'Double Gripper' design provides secure lifelong pipework retention even at excessive pressures
• The innovative 'cage collet' eliminates leaks where fittings are installed close to tight bends
• Collet has internal support ring ensuring o ring seal is held in position and does not distort or leak under pressure
• High integrity single piece moulding improves the strength of the fittings
• Outer sleeve incorporates collet cover, thus preventing accidental pipework release
• Collet clips are not necessary and therefore reduce installation time
• Pipework includes measured cut marks, designed to be a visual guide to ensure that fittings are pushed fully home

Whale Quick Connect Semi-Rigid Pipework

Whale Quick Connect colour coded semi-rigid pipework is available in 12 mm, 15 mm, and 22 mm sizes in standard or high performance (Whalex) PE materials. The pipework's flexibility enables tight bends to be formed, hence reducing both the number of fittings and time required at installation. Whale Quick Connect semi-rigid pipework offers the integrity of metal, but the usability of plastic, and is fully tested and recommended for use with the complete range of Whale fittings (see pages 32 and 33).

Minimum Bend Radii Recommendations

All grades of Whale Quick Connect semi-rigid pipework are flexible and can be bent into a tight radius to facilitate easy installations. This reduces the number of fittings required and the cost of the total water system.

Whale Tubing	Minimum Bend Radius
15mm	75mm

Installation Guide

Step 1 Cut pipework to length by making a straight clean cut using Whale cutters WX7950 (WX7951-USA only) (see **fig.1**)

Step 2 Simply push the pipework length into the fitting to the second internal stop (see **fig. 2**)

Step 3 To release pipework: Push back the grey collet into the fitting, then hold the collet in and pull out the pipework length (see **fig. 3 and 4**)

The Whale Quick Connect products are protected by the following patents
UK Patent Number: 2331564, European Patent Number: 1032785
USA Patent Number: 6349978

Materials	
Whale Quick Connect Fittings	Glass-filled Polypropylene
Whale Quick Connect Pipework	Polyethylene

Recommended Maximum Operating Conditions	Maximum Pressure	Maximum Temperature
Hot Water	6 bar (90 psi)	65°C (150 °F)
Cold Water	12 bar (180 psi)	20°C (68 °F)

	Minimum Bend Radius
Quick Connect 15 mm Pipework	75 mm

Minimum Storage Temperature

The minimum dry storage temperature is -40 ℃ (-40 ℉)

Note: It is vital that the system is fully winterized to prevent frost damage.

⚠ WARNING

WARNING: Temperature Settings – To prevent scalding, (regardless of the water heating method or the control devices used), the temperature for the hot water supplied to the faucets and showers should be controlled in the range of 43 ℃ to 60 ℃ (110 ° F to 140 ° F) with a fail safe set at 82 ℃ (180 ℉).

CAUTION: Ideally, the temperature should be set at 46 ℃ (115 ℉) for health and safety reasons, higher settings will increase the risk of scald injury. Those at greatest risk of scald injury include children, the elderly, disabled, and diabetics.

Fail Safe Controls

⚠ WARNING

WARNING: In a typical marine installation, it is vital to incorporate primary and fail safe controls for water temperature and pressure. Please see list below:

PRIMARY CONTROLS:

Thermostatic Mixer Valve: WX1599B

Pressure Switch: WU7207(B) - In-Line Pressure Switch
or included in the Universal Pressure Pump (see page 6)

Pressure Regulator: WX1595B - Pressure Relief Valve - 6 bar $\frac{1}{2}$" Female

Expansion Vessel: PT0800 - Accumulator Tank

FAIL SAFE CONTROLS:

WX1595B - Pressure / Temperature Relief Valve

(For typical installation of these necessary controls see page 27)

(For a full list of our part numbers see pages 32 and 33)

(For advice on specific installation requirements contact Whale - see contact details)

Note: The patented Whale Plumbing System is specifically designed to be use in "mobile" applications. Whale Quick Connect fittings and Whalex pipework (any) are covered for 10 years from date of purchase (except WX1599). For use with Whale plastic tubing and grooved stems only.
